

Chetan Bhoyar

Senior Frontend Developer (4+ years — React.js, Next.js, React Native, TypeScript)

cab9722@gmail.com | [+91-8412008868](tel:+91-8412008868) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Nagpur, India

SUMMARY

Passionate Frontend Developer with **4+ years of experience** delivering scalable, high-performance web and mobile applications across AI, healthcare, agriculture, and enterprise domains. Proficient in **React.js, Next.js, React Native, TypeScript, Redux, Chakra UI, and MERN Stack**. Consistent track record of building production-ready, pixel-perfect, and accessible interfaces in Agile/Scrum teams. Open to Senior Frontend / Full-Stack Developer roles.

SKILLS

Core Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3 / SCSS

React Ecosystem: React Hooks, Context API, React Router, Redux, Redux-Saga, Redux Toolkit

Mobile: React Native, Expo, Expo Push Notifications, iOS & Android Cross-platform Development

Next.js: SSR, SSG, ISR, APP Router, Image Optimization

UI Frameworks: Chakra UI, Tailwind CSS, Bootstrap, Material UI, Ant Design, Shadcn/UI

Backend / APIs: Node.js, Express.js, REST APIs, MongoDB, MySQL, API Integration

AI / Data: AI Integration, OCR, Chatbot Implementation, Analytics Dashboards, CRM Integration

Tools: Git, GitHub, Figma, Postman, VS Code, Vite, Webpack, Agile/Scrum, Code Review

WORK EXPERIENCE

Techify Solutions Pvt. Ltd.

React & React Native Developer

Ahmedabad, India

June 2022 – Present

- Developed and maintained multiple production-grade web applications using React.js, Next.js, and TypeScript ensuring scalability, performance, and cross-browser compatibility.
- Built and shipped React Native + Expo mobile apps for iOS & Android with push notifications, real-time data sync, and offline-first capabilities.
- Managed complex application state using Redux and Redux-Saga across large-scale modules, improving data flow predictability and maintainability.
- Implemented Chakra UI component library for accessible, responsive, and design-system-consistent UI across enterprise applications.
- Integrated 30+ REST APIs and collaborated with AI/ML backend teams on AI-powered platforms including chatbot, lead enrichment, and analytics features.
- Worked across diverse product domains — AI SaaS, hospital management, agriculture, and sales automation — adapting rapidly to different technical requirements.
- Participated in Agile/Scrum sprints, code reviews, and UI/UX collaboration to deliver high-quality features consistently on schedule.

Infopillar Solution

Full Stack Development Intern

Kalyan, Maharashtra

Jan 2022 – Feb 2022

- Built full-stack web applications using React.js, Node.js, Express.js, and MongoDB; developed REST APIs and reusable UI components.

LetsGrowMore

Web Developer Intern

Remote, India

Dec 2021 – Jan 2022

- Built responsive web pages with HTML5, CSS3, JavaScript, and React.js; strengthened core frontend development and debugging practices.

The Sparks Foundation

Mobile App & Web Development Intern

Singapore (Remote)

Oct 2021 – Dec 2021

- Built React Native mobile app features with REST API integration; designed responsive web pages focused on clean UI/UX and cross-device compatibility.

Wisdom Sprouts Technology

MERN Stack Developer Intern

Pune, Maharashtra

Jan 2021 – Jul 2021

- Developed a full-stack e-learning platform using React.js, Node.js, Express.js, and MongoDB with REST APIs for auth, course management, and purchase flow.
- Designed MongoDB schemas; built reusable React components accelerating development speed across project modules.

Key Projects

AiCardVault — AI-Powered Trade Show Lead Capture Platform | app.aicardvault.com

React.js | Redux | Chakra UI | REST API | AI/OCR Integration | CRM Integration

- Developed the frontend of AiCardVault, an AI-powered SaaS platform that helps businesses capture, digitise, and manage trade show leads by scanning business cards using AI-driven OCR.
- Built a centralised admin dashboard with role-based access control for managing users, events, permissions, and lead reports from a single panel.
- Implemented the lead capture workflow — event selection, dual-sided business card scanning, lead priority classification (Hot/Warm/Cold), and voice/text annotations.
- Integrated AI-powered lead enrichment and seamless CRM sync with Salesforce, HubSpot, Zoho, and other platforms for real-time pipeline updates.
- Built offline lead capture capability with auto-sync on reconnect; used Redux for global state and Chakra UI for accessible, consistent components.

College Connect — Web & Mobile Application | www.siembramobile.com

React.js | React Native | Redux | Redux-Saga | REST API

- Developed both web and mobile versions of College Connect, a student data management platform for educational institutions to manage records, attendance, and academic information.
- Built a responsive web app using React.js with Redux-Saga for efficient async state management of large student datasets.
- Developed the cross-platform mobile app using React Native and Redux, ensuring consistent UI/UX across Android and iOS with real-time API sync.

Excellent.ai — AI-Powered Business Automation Platform | excellentpublicity.ai

React.js | TypeScript | Redux | AI Integration | REST API

- Built dynamic, type-safe UI in React.js and TypeScript for an AI-driven business automation and decision-making platform.
- Integrated AI-powered features including intelligent recommendations, automated workflows, and real-time data-driven insights into the frontend.
- Collaborated with AI/ML backend team to consume model APIs and render AI outputs in intuitive, user-friendly interfaces.
- Implemented Redux for global state management across complex multi-step AI workflows and dashboard views.

Entel — Hospital Management System (In Development)

React.js | TypeScript | Chakra UI | Redux | REST API

- Building a comprehensive hospital operations platform handling multi-department workflows, staff management, and patient records across branches.
- Implemented RBAC with distinct dashboards for Doctor, Nurse, Technician, Ward Member, and Hospital Admin — each with role-specific permissions and views.
- Built branch-wise and specialty-wise doctor management; used Chakra UI and TypeScript for accessible, type-safe, and scalable component architecture.

GoMotto — Sales Representative Mobile App (In Development)

React Native | Expo | Redux | Expo Push Notifications | AI Chatbot | REST API

- Building a cross-platform sales rep mobile app (Android & iOS) using React Native + Expo with appointment & task management and real-time sync.
- Integrated Expo Push Notifications for live alerts on appointments, task deadlines, and lead status updates.
- Built in-app AI chatbot for quick query resolution and an interactive leads dashboard with charts for sales analytics and personal KPIs.

E-Learning Application

React.js | Node.js | Express.js | MongoDB | Bootstrap

- Full-stack MERN e-learning platform — course browsing, purchase flow, user authentication, and admin content management dashboard.
- Built REST APIs in Node.js/Express.js; designed MongoDB schemas for users, courses, categories, and transactions.

EDUCATION

Master of Computer Applications (MCA) S.G.B.A.U Amravati University, Maharashtra, India	2018 – 2021
Bachelor of Commerce — Computer Application (B.Com CA) R.T.M.N.U Nagpur University, Maharashtra, India	2015 – 2018

CERTIFICATIONS

- **Full Stack Web Development — MERN Stack** | Wisdom Sprouts, Pune | March 2021 | [View Credential](#)
- **Enterprise Java Course** | January 2021
